

BASELINE AI WORKFORCE OS

Law Firm — Sales Playbook

Mission Control supervises · Baseline OS coordinates · Hermes / OpenClaw / Claude Code execute

Document: `playbook-law-firm.pdf`

Source: `docs/sales/law-firm.md`

Generated: 2026-05-29

AI Workforce OS for solo and small law firms. Conflict-check before consult. Matter updates without partner time. Intake that doesn't wake the on-call attorney.

1. One-page outline

Headline: AI Workforce OS for Law Firms

Sub: Hire AI employees that triage intakes, run conflict checks, draft matter updates, and keep clients informed — so attorneys do legal work, not admin.

The 3 wins:

- Conflict check completed before the consult (not after)
- Matter status updates drafted weekly with no partner time
- Intake handled 24/7 without overflowing to the on-call attorney

Star employee: AI Intake Coordinator — picks up every inbound, runs the conflict check against the firm's matter database, qualifies, and books the consult. Memory-backed by matter history + practice areas + state bar rules.

The roster (4 AI employees):

Role	What it does	Memory source
Intake Coordinator	Triage + conflict check + booking	Matter DB + practice areas
Matter Manager	Status updates + deadline tracking	Case files + court rules
Client Comms	Client-facing drafts (partner-approved)	Engagement letter + matter notes
Filing Watch	Court deadline + document watch	State + federal rules

The CTA:

1. Live demo: mission.baselineautomations.com/?demo=law-firm
2. \$1, 14-day pilot
3. Convert at \$299/mo solo / \$799/mo small firm

2. Sales sheet

Solo and small-firm attorneys lose two things to admin: hours that should be billable, and clients who get a fast response from a

faster competitor.

Baseline deploys four AI employees:

- AI Intake Coordinator picks up every inbound 24/7. Runs the conflict check against your matter database. Qualifies the matter (your practice areas only). Books the consult. Hands you a brief.
- AI Matter Manager keeps every active matter current. Court deadlines, doc requests, status nudges. The bar-grievance fuel source ("never heard back") is solved.
- AI Client Comms drafts client-facing updates from matter notes. You review and send. The 30 minutes a week you spent drafting status emails is back.
- AI Filing Watch reads the case schedule and flags every approaching deadline. Federal + state rules indexed.

Mission Control supervises. Every client communication waits for attorney approval. Every memory call cites the case file, the engagement letter, or the rule of procedure.

Trial: \$1 / 14 days. Tier: \$299/mo solo · \$799/mo firm.

3. Discovery script

1. How many attorneys + paralegals on the team?
 2. What practice areas? (Litigation, transactional, family, etc.)
 3. How are inbound consults handled today — answering service, paralegal, you?
 4. What's your average billable hour rate?
 5. Active matters?
 6. Practice management software — Clio, MyCase, PracticePanther, none?
 7. How are you running conflict checks today?
 8. Last client who left, and the stated reason?
 9. How often do you send a client a status update unprompted?
 10. \$1, 14-day pilot on 10 active matters + your inbound number?
-

4. Objection handling

Objection	Response	Proof
"Bar rules — AI can't give legal advice."	"AI never gives advice. AI drafts; attorney reviews and signs. Same posture as paralegal work. Audit log per touch."	Show approval queue + audit log
"Conflict checks are sacred."	"AI Intake Coordinator runs the check against your database. If it flags a conflict, the consult never books. If it's clean, attorney still confirms. Belt + suspenders."	Show conflict check flow
"Clio handles this."	"Clio is the system of record. Mission Control is the workforce that <i>uses</i> Clio. Different job."	Demo integration
"Clients want me, not AI."	"Clients want a returned call within an hour. AI returns it in 4 minutes, books the consult with you. Same satisfaction in pilot data."	Sample voice flow
"Solo practice — can't afford this."	"\$299/mo. If it surfaces one missed deadline a year, it pays for itself 10x."	Pricing
"Data — privileged communications."	"Encryption in transit and at rest. Per-touch audit log. Memory citations stay inside the firm — they never leak across workspaces. SOC 2 path in progress."	Security doc

5. Follow-up sequence

Day	Channel	Asset
0	Email	Recap + signed demo + security one-pager
1	SMS	Nudge (attorney's own number)
3	Email	"How a 3-attorney firm reclaimed 12 billable hours/week"
5	LinkedIn	Light touch
7	Email	Slot ask
10	SMS	Last SMS
14	Email	Pilot proposal
21	Email	90-day re-engage

6. Email templates

T+0 — Recap

Subject: AI workforce recap for {{firm}}

{{first_name}} –

Three things from today:

- 1) AI Intake Coordinator taking a new inbound, running the conflict check, and booking the consult – under 4 minutes.
- 2) AI Matter Manager flagging the {{deadline_type}} on {{matter_id}}.
- 3) AI Client Comms drafting the {{matter_id}} status update.

– {{rep_name}}

T+7

Subject: 15 minutes this week, {{first_name}}?

You said ~{{admin_hours}}/wk of attorney time goes to admin. At \${{billable_rate}}/hr, that's \${{annual_loss}}/year before opportunity cost.

\$1, 14 days. If we don't reclaim measurable billable hours, you walk.
