One playbook per launch vertical. Every playbook ships:

- 1. One-page outline (print-to-PDF ready)
- 2. Sales sheet
- 3. Discovery script
- 4. Objection handling
- 5. Follow-up sequence
- 6. Email templates
- 7. SMS templates

Vertical	Playbook	ICP buyer	Primary trigger
Property Management	property-management.md	Director of Operations / PM company owner	Tenant maintenance + owner reporting workload
General Contractor	general-contractor.md	Owner / GM	Bid pipeline + sub coordination overhead
Home Services	home-services.md	Owner / Operations lead	Missed calls + same-day dispatch
Real Estate	real-estate.md	Team lead / brokerage operations	Lead response time + transaction coordination
Mortgage	mortgage.md	Branch manager / Ops director	Doc collection cycle + closing chaos
CPA / Accounting	cpa.md	Managing partner / Operations	Tax-season missing-doc chase
Law Firm	law-firm.md	Managing partner / Office admin	Intake conflict checks + matter updates
Marketing Agency	marketing-agency.md	Agency owner / Head of delivery	Reporting + content + follow-up bottleneck
AI Agency	ai-agency.md	Founder / Head of delivery	Multi-client AI workforce deployment

All 9 launch verticals ship with a complete sales playbook. The Cigar Retail demo template is supported in the product but does not have a dedicated sales playbook yet — it is a \$0 acquisition lure, not a paid ICP.

How to use a playbook

- 1. Discovery call: open the playbook, follow the discovery script.
- 2. Demo: open `/app/share?vertical=<id>&prospect=<name>` and send.
- 3. Follow-up: trigger sequence on day 0; queue templates.
- 4. Pilot: hand off to `docs/onboarding/14_DAY_PILOT_SOP.md`.

Shared assets

- ROI calculator: /roi-calculator
- Demo home: /
- Marketplace: /marketplace
- Demo expired fallback: /demo/expired

Cross-vertical email patterns

Touch	Subject pattern	Body shape
T+0 (post-demo)	"Recap + your AI workforce for <company>"	3-bullet recap + signed demo link
T+2	"Quick follow-up — did the <vertical-specific> angle resonate?"	One-line nudge + calendar link
T+5	"Case study — how <reference> saved <metric>"	Story + soft ask
T+10	"Closing the loop on <company>"	Final ask + alternative path

Cross-vertical SMS patterns

Touch	Copy
T+1	"Hi <name> — quick recap on the AI <role> we walked through. Want the signed demo link for your team?"
T+4	"Following up on the AI workforce for <company>. Worth a 15-min next step?"
T+8	"Last nudge — happy to send a pilot proposal or shelf this until next quarter, your call."

All SMS templates are TCPA-compliant: every cadence ends with STOP / HELP keywords supported, no SMS without prior opt-in, frequency cap 3 per prospect.
