AI Workforce OS for real estate teams and brokerages. Respond in 5 minutes. Coordinate every transaction. Nurture every cold lead.

1. One-page outline

Headline: AI Workforce OS for Real Estate

Sub: Hire AI employees that respond to inbound leads in under 5 minutes, run transaction coordination, and nurture cold leads 24/7.

The 3 wins:

- Lead response time < 5 minutes (vs. industry 24+ hour median)
- 2.4x more showings booked from the same inbound volume
- Transaction coordination without a TC on staff

Star employee: AI Lead Capture Assistant — picks up every inbound lead from your IDX, Zillow, social, referral. Qualifies. Books the showing. Routes warm leads to the right agent.

The roster (4 AI employees):

Role	What it does	Memory source
Lead Capture	Qualify + book + route	Listings + agent schedule
Transaction Coordinator	Deadlines + doc chase	Contracts + state forms
Listing Specialist	CMA prep + pricing strategy	MLS + past comps
Nurture Concierge	Drip cadence + re-engagement	Lead history + preferences

The CTA:

1. Live demo: mission.baselineautomations.com/?demo=real-estate
2. \$1, 14-day pilot
3. Convert at \$299/mo

2. Sales sheet

The most expensive thing in real estate is a lead that gets a response in 24 hours. By then they've already booked a showing with someone faster.

Baseline deploys four AI employees:

- AI Lead Capture responds in under 5 minutes, qualifies on budget + timeline + area, books the showing, and hands the agent a brief. From inbound to booked, no agent touch required.
- AI Transaction Coordinator runs every active contract. Deadlines, doc chases, state form prep, lender follow-ups. The TC role for \$299/mo.
- AI Listing Specialist drafts the CMA, surfaces pricing strategy from recent comps, and prepares the listing brief.
- AI Nurture Concierge keeps every cold lead warm with a drip that adapts to their behavior. 30-day, 90-day, "buy in spring" cadences.

Mission Control supervises. Every contract action waits for the agent. Every memory call cites the listing or the contract.

Trial: \$1 / 14 days. Tier: \$299/mo Team or \$799/mo
Workspace for brokerages.

"Buyers want me, not AI."	"AI Lead Capture qualifies. You close. The lead never sees AI — they see a confirmed showing with you. Listen to a sample."	Play a sample flow
"Follow Up Boss does drip."	"Drip is a templated sequence. AI Nurture Concierge reads behavior and adapts. Cold lead opens 3 emails about Lake Mary → cadence shifts to Lake Mary listings."	Show adaptive cadence
"TC services exist."	"\$300–600/mo for a human TC who handles 10–20 transactions. AI TC handles unlimited at \$299 and works 24/7."	TC pricing comparison
"Compliance — I can't have AI sending emails."	"AI drafts. You approve before send. Same compliance posture as your assistant clicking Send."	Show the approval queue
"My team is small."	"\$299/mo Team plan covers 5 agents. Pick a top producer, run the pilot."	Pricing

You said you lose ~{{lost_leads}}/month to slow response.

At your avg GCI of \${{gci}}, that's ~\${{annual_loss}}/year if even 1 in 4 of those leads would have closed.

\$1 pilot. 14 days. If we don't measurably lift your showing rate, you walk.
